ACCESS WIZARD · PHONE ACCESS

AI is your installer.

This product is AI first. AI can install and control the product. So you don't have to.

Your phone is the key.

Connect it to a gate or an electric strike door. It replaces the key or fob with your phone. No cloud account.

At a glance

Power	10–30 V, AC or DC
Current	150 mA peak. 10 mA in low-power Bluetooth
Output	Dry relay, 1 A at 30 V
Connection	5 screw terminals
Size	About 94 × 52 × 32 mm
Install	Screw mount. Inside enclosure.

What you get

- **No subscription.** All features are free forever.
- **Phone is the key.** Wi-Fi or Bluetooth. No app to install.
- **Guest invites.** Send a Bluetooth invite. They tap Open. It expires, or you cancel it.
- **Schedule.** Set open and closed hours.
- **Gate controllers and electric strikes.** Highly compatible with both.
- **Low power mode.** Made for solar setups. Uses 3 watt-hours per day of your solar budget.
- **Remote reporting.** Send the history to your own web address.
- **A record.** See who opened it and when.
- **Home Wi-Fi.** Join your home network if you like.
- **Reach it from anywhere** through your own VPN. VPNs keep their security current far better than a small device can, and your AI can help you set one up.
- **Full AI compatibility.** Give your AI the unit's manual and settings. Ask it to set the unit up for you.
